

# WILLIAM D. FITCH PARKWAY

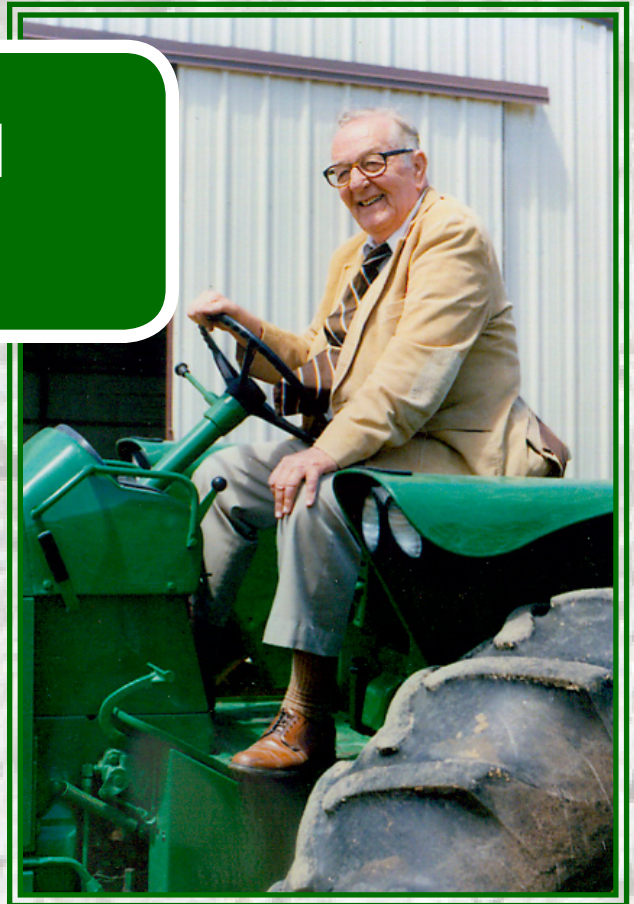

**W**illiam D. Fitch,

*“Mr. College Station,”* was truly a great man of vision. During his career as a general contractor and home builder, Fitch developed many area neighborhoods. Not only was he responsible for the construction of many streets, roads, bridges, sidewalks and curbs, but he was instrumental in the orderly growth of the City. Suggestions to name the 8.5 mile roadway (S.H. 40 and Greens Prairie Road) in his honor were made by citizens and approved by the College Station City Council.
